## Career Objective

Computer Science and Information Technology (CSIT) graduate with knowledge of Java, SQL, cloud computing, and Git. Eager to contribute to software development, cloud technologies, and technical problem-solving while continuously learning and growing in a professional engineering environment.

## Education

**Bachelor of Technology in CSIT – Cloud and Edge Computing** *2022–2026*
*KL University, Guntur, Andhra Pradesh* **CGPA: 8.98**

**Intermediate – MPC** *2020–2022*
*Sri Chaitanya Junior College, Machilipatnam* GPA: 6.05

**Matriculation – 10th Class** *2019–2020*
*Narayana High School, Machilipatnam* GPA: 10.0

## Skills

| | |
|---|---|
| **Programming** | Java |
| **Cloud Platforms** | Amazon Web Services (AWS) |
| **Databases** | MySQL |
| **Version Control** | Git, GitHub |
| **Soft Skills** | Leadership, Problem Solving, Teamwork |

## Technical Proficiency

- **SQL:** Hands-on experience with SQL sublanguages including DDL, DML, DQL, DCL, and TCL; joins, window functions, date functions, and data masking evaluation processes.
- **Java:** Familiar with Java fundamentals, Object-Oriented Programming (OOP) concepts, and JVM architecture.
- **AWS:** Theoretical knowledge of AWS cloud computing concepts and services.
- **Git:** Familiar with repositories, commits, branches, merging, and basic version-control workflows.

## Projects

**Event Management System**

- Developed a web-based Event Management System to automate planning, registration, and coordination of conferences, workshops, and seminars.
- Implemented role-based access control with secure authentication and CRUD operations for events and logistics.
- **Tech Stack:** React, MongoDB, Node.js, Express.js, JavaScript, CSS

**Enterprise Resource Planning (ERP)**

- Developed a role-based ERP web application for Admins, Faculty, and Students.
- Implemented secure authentication for reliable access control.
- Built the backend using Spring Boot and MySQL for efficient data handling.
- **Tech Stack:** Java, React.js, Spring Boot, MySQL, Railway Database

## Certifications

- Red Hat Certified Enterprise Application Developer
- Azure AI Fundamentals
- Oracle Cloud Infrastructure 2025 Architect Associate
